

# Belmont Bogie Busters

January 2007

Still waiting for snow. Does anyone have connections with “mother nature”? Every time I check the weather it continues to stay warm. Keep your fingers crossed!

The maps are being printed the last week of December and will be sent to the members over the next couple of weeks. They will also be available at some local stores and restaurants. The final proof I saw was great.

## Trails

Most of the work is done, the heavy equipment portion anyway. The re-route at the Rt. 107 crossing is now done. Thank you to the Otto's of Loon Excavating for coming out with the excavator in the rain. Also thank you to Ambros Bros, and Walt Philbrick for working with us to keep the trail open. Most of the fields are all staked and signed. We will be heading out on Saturday's throughout January to do some final trimming and signing.

When we get 2 feet of snow next week, (believe) remember that the ground, lakes, ponds and water bars are not frozen yet. Please keep that in mind, every year I find someone in a water hole after that first big storm. Be cautious.

**Reminder:** Next Meeting, Tuesday January 9<sup>th</sup>, 2007, 7pm at the Corner Meeting House in Belmont.

Check the website for updates and other information.
